Pasture Pipeline – Proposed Project

Landowner Name: _____ **Date:** _____

Phone: _____ **Who referred you?** _____

Email: _____ **Postal Code:** _____

Mailing Address: _____

Legal Description of Project Site: Qtr: _____ Sec: _____ Twp: _____ Rge: _____

Municipality: _____ **Sub-District:** _____

Is the system above or below ground? Above Below ground _____ **feet or inches**

How many animals (max capacity) and what kind? _____

How are livestock currently watering? _____

Distance of pipeline required to supply water (approx.): _____ **feet or km**

Where will water be supplied from for the pipeline? _____

How many acres will the pipeline supply? _____ **tame acres** _____ **native acres**

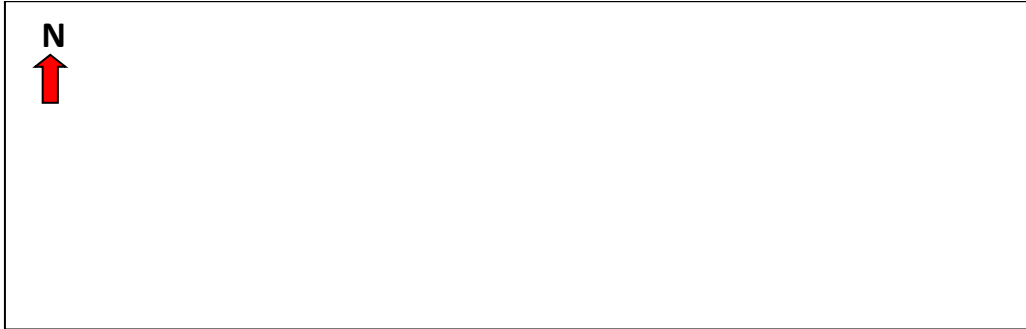

Is the pipeline able to be extended in the future if need be? Yes No

Project Description:

Objective:

- Restrict livestock to directly access surface water sources;
- Reduce soil compaction and soil erosion;
- Increase pasture health by increasing water infiltration and herd health; and
- Enhance rotational grazing management and distribute grazing pressures across pasture(s).

Project Sketch: Please indicate project location including rough land location, surrounding vegetation, waterways, infrastructure, and use of land.

Project Funding/Cost – Responsibilities:

Landowner

1. Agree to pay a total of up to 20% invoiced cost for total project works (equipment/materials) completed up to \$18,000 – including all costs incurred above \$18,000 (cost-shared funding ratio) plus an administration fee.
2. Make an upfront payment of half of the 40% cost share listed above plus an administration fee before the project start.
3. May use equipment and/or materials in-kind, where appropriate and timely, with safety consideration and WD approval.
4. Required to fence off surface water such as a dugout or waterbody, see 'riparian fencing application' if no fencing exists.
5. Approvals from other entities or bodies affected from installation of project.
6. Temporary setup of pasture pipeline, portable gas/diesel powered water pumps, generators, pump houses are ineligible
7. Allow access for inspection and evaluation by SLWD staff and the Board at any reasonable time.
8. Ensure proper and sufficient permanent seed establishment along pipeline installation and complete any maintenance required.
9. Willing to use this application as the landowner's agreement upon approval of project.
10. Be willing to complete Environmental Farm Plan (EFP).

Watershed District (WD)

1. Will pay 80% of invoiced cost for project works (including equipment use if required) completed up to \$18,000 maximum; other funding options may be possible – discretion based on the Board and is subject to change due to available funding.
2. Ensure all required permits and agreements are in place prior to project start.
3. Complete all required survey and engineering work.
4. Provide contractor, equipment, and materials for project for District portion.
5. Supervise contractor as required.
6. Will compare equipment usage to the Manitoba Heavy Construction Association's Equipment Rental Rates Guidebook and contractor and WD estimates.
7. Reimburse payment to landowner if an overpayment situation arises from agreed project minus the administration fee.
8. The district is not responsible for any alterations or damage caused by wildlife activity.

The Landowner Shall:

- **Allow consent of entry onto property for purposes of the project;**
- Provide access for inspection, evaluation, or further construction of the project by the WD at any reasonable or future time;
- Not alter, change, remove or modify the project without written consent of the District;
- Ensure agricultural use and practices do not alter or affect the integrity of the project;
- Allow the District to place signage at the project site; signage removal must be approved by the District prior to removal;
- Indemnify and save harmless the District from any and all actions, claims, suits, damages, injuries, or other loss no matter howsoever arising as a result of the construction, operation, or maintenance of the project, and;
- Grant the Watershed District the right to use any information related to this project for educational or promotional purposes.

The Watershed District Shall:

- Reserve the right to reasonable access to project areas for tours, educational purposes or to inspect the condition of the project site at any time following completion of the project; and
- Reserve the right to alter funding criteria based upon the Board's discretion and available external funds at time of application.

I hereby declare that I have read the conditions of this agreement and agree to abide by the terms and responsibilities listed above. I further agree to cooperate to the fullest extent with the SLWD Board, staff, and contractors in completing and maintaining the project as outlined. This agreement may be used as a binding agreement.
